DETAILED ACTION

Claim Objections

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 21-26 and 31-36 have been renumbered as claims 12-23.

Claims 1, 13, 21 and 23 are objected to because of the following informalities: the reference to "inboard" and "outboard" in the claims is confusing because there is no reference frame for inboard and outboard, the examiner suggest using another set of terms such as first and second. Appropriate correction is required.

Specification

The disclosure is objected to because of the following informalities:

At line 21 of page 5 reference is made to Fig. 3b but there is no figure 3b;

At page 6 line 5 reference is made to figures 14 A and B but there is only a Fig. 14, and;

There should be a period at the end of each of lines 25 on page 5, line 2 of page 6, and line 22 of page 7.

Appropriate correction is required.

Drawings

Various of the figures should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. Each of figures 1-13, 16-18 and 22-29 are identical to the same figures in US Pat. No. 5,615,834. Those figures which only show material disclosed in the previous patent, i.e. the figures which do not show any part of the square thrust reverser doors, show only prior art tailpipe and hydraulic drive elements. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1-23 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art neither discloses nor makes obvious a thrust reverser as claimed including thrust reverser doors which surround or overlay the engine tailpipe in the stowed position and have substantially flat center panels.

Conclusion

This application is in condition for allowance except for the formal matters noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
